

CHECKLIST: IS YOUR LOVED ONE STRUGGLING WITH MARIJUANA ABUSE?

Do they use smoke more than they used to?

Do they appear anxious after not using it for a while?

Have they failed at efforts to quit?

Are they neglecting important responsibilities?

Have they self-isolated or become withdrawn?

Are they having financial difficulties?

Do they take unnecessary risks?

Do they have frequent conflicts with friends/family?

Have new health issues become a concern?

Has smoking marijuana caused negative consequences?

The more boxes you check, the more likely your loved one has a marijuana use disorder diagnosis. Connect with us today for a professional evaluation.
